Cremona, the **heart** of livestock farming

The excellence of the
livestock farming production
model meets in Cremona
to look to the future

Passion and tradition come together
in a unique, innovative show!

The dairy farming world comes together to share solutions, do business and build its vision of the future.

Industry professionals from Italy, Europe and the world

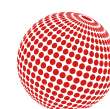

In Cremona, the exhibition of the best technologies and services for the agro-livestock sector combines with an outstanding technical and scientific programme and the largest, most innovative cattle show. Businesses, breeders and the public sector meet to assess the industry's future and find real solutions for producers.

The 2025 edition in numbers

An exhibition of:

- more than 200 companies
- 400 international brands represented
- 80 events, including lectures, seminars and educational workshops
- 150 foreign professionals from 22 countries

International

A more and more international exhibition, which attracts professionals from all over the world with its outstanding technical contents, display of a production model of excellence occupying more than 55,000 m², and the innovative livestock show where today's breeders reveal all their passion, quality and skill.

The internationally recognised show is included in the programme promoted by the Italian Foreign Ministry through ICE Agenzia.

Engage, impress, innovate

Taking part in the Cremona show means much more than simply being an exhibitor - it's a way of engaging with your customers, impressing them with original communications and sharing a unique experience with them.

In Cremona, you'll do business in the exciting context of innovative stands and the ring of an outstanding, unique cattle show, which attract professionals from all over the world.
